PATTI DiGANGI, RDH, BS 4 CEUs

HYGIENE BEST PRACTICE: CARE AND CODING

The world of dental hygiene is poised for an explosion of new success. Factors driving this include direct access to patients, collaborative teledentistry, Medicaid providers, the continuing body of oral-systemic science and expanding practice settings. Most every dental hygienist, no matter the setting, can agree there aren't enough codes creating day-to-day dilemmas. For example, why are there no codes for care for active gingival disease without bone loss? (HINT: CDT 2017 will have a code!) In the era of the Affordable Care Act, codes are not just for payment, they also are a measure of dental hygiene success. This course will demystify the process for clinicians.

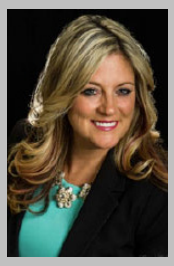
FRIDAY, SEPTEMBER 16th



LANCETTE VanGUILDER, RDH 6 CEUs

AU NATURALE: ORAL HEALTH AND HOMEOPATHIC TRENDS

Holistic and alternative medicine trends are on the rise. More and more people are seeking out natural ways to feel better, improve their health and minimize the need for harmful chemicals and invasive procedures. The dental team has the opportunity to serve as a valuable resource for optimal oral and overall health. This course will provide background on natural healing practices as well as an overview of current oral and homeopathic trends and alternative medicine culture.

TO INFINITY AND BEYOND: DELIVERING EXCEPTIONAL CARE

How many of you have continued to practice the same way that you did last month, the month before or last year or the year before, or maybe even for the last 5 years? The reality is that many of us find our comfort zone...and stay there! We have the experience and knowledge base to be providing the very best care that we can-but there is always room for improvement! Venture out a little further and pick up "pearls of wisdom" or information about the latest and greatest technology and techniques, practice management tools and perspectives on clinical and functional outcomes and watch your practice and team soar!

DENTAL HYGIENISTS: ESSENTIAL PRIMARY CARE PROVIDERS

Dental hygienists are the primary preventive oral health care provider. Currently, many sources shed light on the demand and severe need for dental services that may be provided by the dental hygienist. In addition, the ever-evolving healthcare landscape, the expansion of healthcare coverage, increased research with the oral systemic link and the epidemic of inflammatory and chronic diseases are reinforcing that optimal oral health is a key component for optimal overall health. As states across the country are moving to expand the dental hygiene scope of practice, increase practice settings and introduce midlevel dental hygiene providers—the profession of dental hygiene is exploding with opportunities!

GREAT FALLS COLLEGE-MSU TABLE CLINICS 1 CEU

The senior dental hygiene students will be presenting their research on a variety of interesting topics.

SATURDAY, SEPTEMBER 17th

MONTANA DEPARTMENT OF HEALTH AND HUMAN SERVICES 4 CEUs

ASK, ADVISE, REFER, *GET PAID:* BRIEF TOBACCO CESSATION

The Montana Tobacco Use Prevention Program's representative will discuss brief cessation interventions for health professionals. This one-hour presentation will focus on Ask, Advise, Refer as the evidence-based method. The session will cover Montana Quit Line benefits as well as Medicaid reimbursement codes for billing.

ACCURATE BLOOD PRESSURE MEASUREMENTS in the DENTAL OFFICE: WHY AND HOW

One out of three US adults has hypertension, a major risk factor for cardiovascular disease including heart attack and stroke. Routinely monitoring blood pressure at initial assessment and before certain dental procedures is recommended both from a patient care and liability standpoint. Dental hygienists are capable of identifying patients with undiagnosed hypertension as well as targeting those patients with elevated blood pressure who are scheduled for stressful procedures. This three hour program will address methods of obtaining accurate and reliable blood pressure readings in the dental office.

TO BE ENVIRONMENTALLY-MINDED, WE WILL BE EMAILING SOME PRESENTATION MATERIALS FOR YOU TO PRINT AT HOME BEFORE THE MEETING IF YOU CHOOSE.
PLEASE PROVIDE A VALID EMAIL ADDRESS WITH YOUR REGISTRATION.

PRESIDENTIAL LUNCHEON & MDHA BUSINESS MEETING - Friday 11:00-2:00

Please help MDHA honor and thank Heidi Halverson, RDH for her service as President of our Association during the 2015-2016 year! This will be a hosted lunch while Heidi reflects on her experiences and looks toward the future. We will also be celebrating some well-deserving award recipients. Asian or Cobb Salad with roll, dessert and iced tea, lemonade, coffee. **Please RSVP on Registration form. Sponsored by:**

Members should make a priority to attend our yearly business meeting. Non-members are welcome and encouraged to attend as well. Your opinions are important to the decisions made by your Association.

Patterson Dental

MDHA & SMADHA DINNER - Friday 6:30-8:00 at the Windmill Bar 51

Everyone welcome! Please join us as we celebrate the installation of the 2016-2017 MDHA and SMADHA Officers. Menu choices include:

- **Lemon Pepper Chicken** served with salad, coleslaw and garlic mashed potatoes
- **Walnut Crusted Halibut** topped with asparagus & hollandaise, served with salad and choice of potato
- **6oz Petite Beef Filet** served with choice of potato and salad.

***RSVP REQUIRED* $25.00** (Free for Senior GFC-MSU Students but please RSVP)

St. Vincent HEALTHCARE | SCL Health

On Friday, St. Vincent's Mammography Bus will be at the Big Horn Resort doing screening exams. The screenings are free of charge and will take about 15 minutes. Mammogram images are sent to a board-certified Radiologist for review and results will be mailed to you and your healthcare provider within 7-10 days. If you are interested, please check the box on our Registration form and sign up for a time at our Annual Session registration table.
